

RoHS Statement of Compliance

Grafityp Selfadhesive Products NV is committed to environmentally responsible behaviour.

For the production of their Grafiprint materials (coated and uncoated films for printing applications as well as protective overlaminating films), Grafityp Selfadhesive Products NV will meet all the requirements of the European Union's Restriction of Hazardous substance directive. RoHS restricts the use of lead, cadmium, mercury, hexavalent chromium, polyprominated biphenyls and poly-brominated diphenyl ethers in electronic products and materials used in such products, placed on the European market on and after 1st July 2006.

Grafityp Selfadhesive Products NV declare that all Grafiprint materials contain none or less than the maximum concentration values of the above-mentioned substances and consequently meet the RoHS directive.

For purposes of this RoHS certificate, the maximum concentration values of the restricted substances by weight of homogeneous materials are :

- Lead (Pb) : 1,000 ppm
- Cadmium (Cd) : 100 ppm
- Mercury (Hg) : 1,000 ppm
- Hexavalent chromium (Cr6+) : 1,000 ppm
- Poly-brominated biphenyls (PBB's) : 1,000 ppm
- Poly-brominated diphenyl ethers (PBDE's) : 1,000 ppm
